

Santa Fe College Rules Manual

Title: Selection for Admission to Limited Access Programs Rule 7.24

General Authority: FS 1001.64
Law FS 1001.65, 1007.263, 1007.265; 6A-10.041, FAC
Implemented:
Effective Date: April 20, 2016

Purpose: To state the approved criteria for admission to the limited access programs of the College.

The District Board of Trustees recognizes that resource limitations, educational considerations, and post-graduate employment criteria create reasons for limiting access to various academic programs of the College. The President is authorized to adopt a written procedure identifying limited access programs and providing procedural guidelines.

Each program shall adopt and provide to prospective students a description of its respective selective admission system in accordance with this rule.

Deadline for Applications: Each limited access program shall establish and publish a deadline for the acceptance of applications.

Each limited access program must publish the specific criteria used in program participant selection. In addition to the stated criteria, each program shall comply with other college commitments including, but not limited to, High School Dual Enrollment and Career and Technical Education articulation agreements. Additionally, students may be denied admission to a limited access program for failure to meet established requirements for employment in the identified field of study.

Once accepted to a limited access program, admission will be not be formally granted without successful completion of applicable screenings including, but not limited to, a health, drug and background screening.

The Florida College System institutions have a general open admission policy provided applicants meet the minimum standards as stated in Florida law. In compliance with this statute, the College is committed to providing equitable educational opportunities to all students pursuing admission to a limited access program, regardless of background.
